COMPANY PROFILE

Corporate Headquarters: 10500 Seymour Avenue
Franklin Park, IL 60131

Established: 1906

Website: sloan.com

About Us: Sloan is the world's leading manufacturer of commercial restroom solutions. Since innovating the Royal® Flushometer more than 116 years ago, Sloan has led the industry in water efficiency with products that are beautiful, built to perform, and guaranteed to last. Sloan provides smart, sustainable restroom solutions, including flushometers, touch-free sensor faucets and soap dispensers, sink systems, and vitreous china fixtures for commercial markets worldwide. Sloan offers the most comprehensive offering of touch-free products in the industry.

Even before wellness, sustainability, and water efficiency were in vogue, Sloan has been at the forefront of the green building movement. Our global team of engineers has developed technologies that improve hygiene, wellness, and water-efficiency without compromising design, quality, affordability, or performance.

From Disney World to the World Trade Center to the Dubai International Airport, Sloan has helped designers deliver healthier, high-performance restroom environments wherever people work, play, and thrive.

Every day around the world, Sloan products connect the systems that manage our planet's most precious resource. Water Connects Us® is more than just Sloan's tagline. We connect communities of designers, architects, engineers, building managers, and owners to high-efficiency products to promote healthier water ecosystems for generations to come.

ABOUT THE MOBILE RESTROOM INITIATIVE

Sloan's Mobile Restroom

Sloan's fully-equipped Mobile Restrooms support communities affected by natural disasters, emergencies, and other catastrophic incidents.

Sloan's Mobile Restrooms provided residents and emergency responders with hygienic facilities in the aftermath of disasters ranging from hurricane relief efforts in Louisiana and Florida to the tornados in Kentucky and wildfires in California.

The deluxe restrooms combine comfortable and customizable hardware with easy-to-maintain design to deliver guests with a hygienic, clean, and welcoming experience. Sloan's Mobile Restrooms are designed for universal accessibility, with each unit split into men's and women's areas.

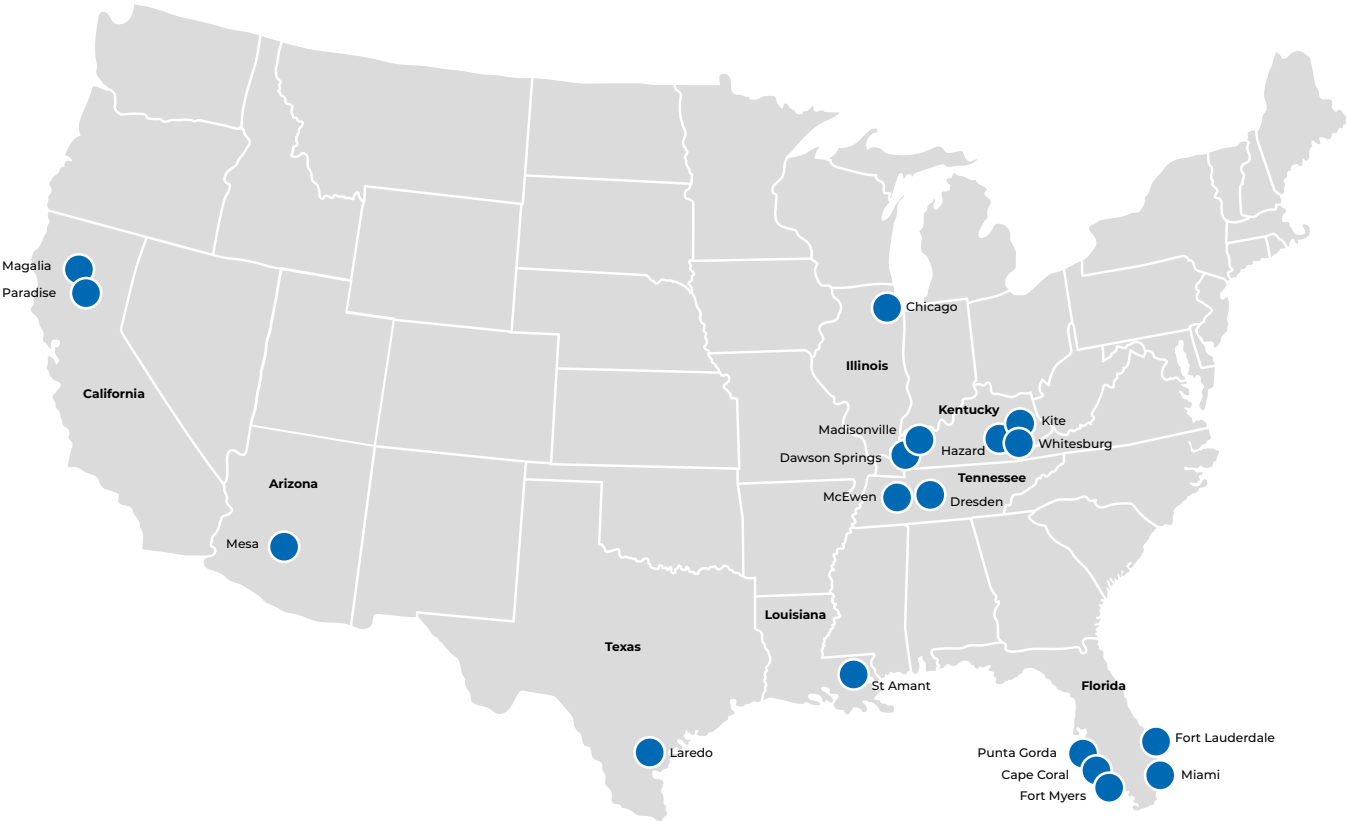

The restrooms are outfitted with Sloan products including:

- Sloan ST-2019 Elongated Floor Mounted Water Closets with CX 8198 Concealed Sensor Flushometers in Brushed Stainless
- SU-7419 Designer Washdown Urinals with CX 8158 Concealed Sensor Flushometers in Brushed Stainless (in the men's area only)
- DSOF-82000 Designer Series Open Front Sink in Limestone Prima with EBF-425 Faucets
- ESD-420 Soap Dispensers in Brushed Stainless
- EHD-701 Optima Air Sensor-operated Hand Dryers

SLOAN'S MOBILE RESTROOM FROM COAST TO COAST

Sloan's Mobile Restroom is providing mobile aid for communities in need

In times of uncertainty, our Mobile Restrooms help communities across the nation face hurricanes, wildfires, and other catastrophic incidents head-on.

Sloan's Mobile Restrooms have helped communities recover from natural disasters.
Over the last two years, the Sloan Mobile Restroom came to aid in these locations across the country:

Date	Location	Service
May 2021	Laredo, Texas	This was a direct request from FEMA to aid in the humanitarian crisis at the Southern border of the United States.
May 2021	South Florida	After the first two events, this was deemed impractical and FEMA was informed of the second unit for use in disaster relief.
June — August 2021	Laredo, Texas	Service in support of Catholic Charities.
July — December 2021	Paradise, California	Provide restroom services as requested by FEMA in support of the community and volunteers working to rebuild after wildfires in the area.
August — October 2021	St. Amant, Louisiana	Provide hurricane relief.
October — December 2021	Laredo, Texas	Requested to resume services.
December 2021	Dawson Springs, Kentucky	Support of the community and the surrounding areas impacted by tornado damage.
December 2021	Dawson Springs, Kentucky	Provide FEMA-requested aid after tornado.
February — April 2022	Mesa, Arizona	Sloan-requested events.
April 2022	Laredo, Texas	FEMA's request to resume serving migrant populations waiting to be processed by USA Immigration and Customs.
April 2022	Tennessee	Provided aid in the rebuilding of storm-ravaged communities.
April 2022	Tennessee	Aid in the rebuilding of the communities impacted by storms.
April 2022	Wynne, Arkansas	Sloan dispatched a mobile restroom unit to offer support to the community impacted by an EF3 tornado with wind speeds of 165 miles per hour.
April 2022	Tulsa, Oklahoma	Supported 180 Disaster Relief with its annual gala to raise funds to help communities throughout the country and in Tulsa facing challenging times.
April — May 2022	Anguilla, Mississippi	Relief efforts are assisting the community impacted by a deadly tornado that left massive amounts of destruction in its path.

Sloan's Mobile Restrooms have helped communities recover from natural disasters.
Over the last two years, the Sloan Mobile Restroom came to aid in these locations across the country:
 (Continued)

Date	Location	Service
May 2022	Porterville, California	Supporting the community impacted by flood waters that blocked residents from food, water, and electricity for over two weeks. Flood waters cut off domestic water, sewer lines, telephone poles, and bridges across the reservation.
May — June 2022	Longs, South Carolina	Assisting Spokes of Hope and its efforts in assisting people in desolate areas affected by natural disasters, as it builds a new community center.
July 2022	Hazard, Kentucky	Aiding Team Rubicon in its relief of the flood-ravaged communities of Eastern Kentucky.
July 2022	Laredo, Texas	Utilized at Catholic Charities due to increased need at the US border.
July 2022	Hazard, Kentucky	Aiding Team Rubicon in its relief of the flood-ravaged communities of East Kentucky.
July 2022	Chicago, Illinois	Requested to head to Chicagoland area for a series of events at Wrigley Field, as well as at two residences.
August 2022	Kite, Kentucky	Deployed to assist with flood recovery efforts.
September 2022	Whitesburg, Kentucky	Supported Team Rubicon with flood relief efforts.
October 2022	Cape Coral, Florida	Supported Spokes of Hope after Hurricane Ian's destruction.
October — November 2022	Punta Gorda, Florida	Helped alongside Team Rubicon after devastation from Hurricane Ian.
November — December 2022	Fort Myers, Florida	Additional support for Spokes of Hope.
November 2022 — January 2023	Punta Gorda, Florida	Assisted Team Rubicon after Hurricane Ian.
December 2022 — February 2023	Laredo, Texas	Assisted with support at the border with Catholic Charities.
February — March 2023	Mesa, Arizona	Special events
March 2023	Magalia, California	Worked with Global Empowerment Mission Magalia Community Church aiding residents who lost their homes due to heavy snow.

TESTIMONIALS

Catholic Charities USA

“At Catholic Charities, we recently found ourselves faced with losing access to a shelter serving the area’s homeless population, leaving us without adequate restrooms and handwashing facilities. In the current COVID-19 crisis, such amenities can mean the difference between community health and community outbreak.

In the midst of frantic searching for alternative resources, a colleague in Denver alerted us to an opportunity for a mobile restroom unit from Sloan, which we gratefully accepted. Sloan’s team was gracious, accommodating, and kind, and they quickly delivered an immaculate mobile restroom to support our most vulnerable and marginalized citizens. This, to us, is the very definition of charity and solidarity.”

Joe Domko

Regional Director Larimer County
Catholic Charities of the Archdiocese of Denver

Team Rubicon

“The Sloan Mobile Restroom has been a blessing to have on the [FEMA hurricane relief] operation in Lake Charles, La., where there are 20 volunteers working and sleeping in tents. The cleanliness of the unit, climate control, and comfort of music are things we are not used to in the field. Often, we get caught up in our work and don’t take time to appreciate what is happening around us. The Mobile Restroom has been used as a bathroom, changing room, and shelter from the rain a few times, but most often it has given us a sense of normalcy in a disaster zone. The Sloan Mobile Restroom is not your average FEMA disaster asset, but I endorse it being used in future deployments.”

Traci Rankin

Field Leadership-IMT Manager, Clay Hunt Fellow
Team Rubicon

Magalia Community Church

“We were recently blessed to have the Sloan mobile restroom at our location during a winter storm disaster. The unit is fabulous! It is maintained on a regular basis, including daily cleaning! The bathrooms are modern, heated, and the only thing you need to supply is water. We highly recommend the Sloan mobile restroom in a disaster.”

Doreen Fogle

Magalia Community Church

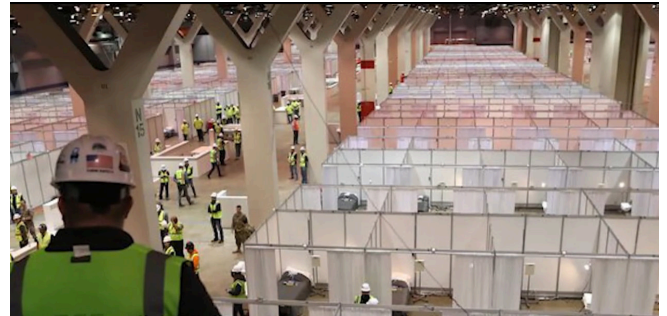

COMMITMENT TO PHILANTHROPY

In addition to its efforts with the Mobile Restroom, Sloan supports over 30 organizations that are making our world better. That commitment to community involves both a connection to local and national charities, as well as personally giving back to those in need.

Shiloh Homes of Hope

Sloan is breaking ground on spaces where orphaned Kenyan youth can build their lives. Its collaboration with Shiloh Homes of Hope will help provide energy-efficient and sustainable homes and assist underprivileged and at-risk orphans in Kenya. This project will help house orphaned youth, administration, and staff to change the lives of many children forever.

Supporting COVID-19 Relief Efforts at Temporary Field Hospitals

Sloan provided its touch-free restroom products to support the conversion of Chicago's renowned McCormick Place Convention Center and Yale University's Payne Whitney Gym into temporary field hospitals—or COVID-19 Care Centers—due to the overflow of patients suffering from COVID-19.

JDRF

JDRF—formerly the Juvenile Diabetes Research Foundation—funds type 1 diabetes research and advocates for regulation that makes it easier to market new medical devices. Sloan is proud to support this cause and is an active participant in the Chicago JDRF One Walk each year.

Donating Mobile Handwashing Stations to Schools in Need

Bernhard Moos Elementary, a K-8 school in Chicago, was preparing to welcome back 428 students to the building after months of remote education due to the COVID-19 pandemic. Sloan donated a Mobile Handwashing Station—equipped with hands-free, sensor-operated technology for both indoor and outdoor applications—to help the school successfully welcome back students without any COVID-19 outbreaks.

COMPANY HISTORY

The History of Sloan

Past to present, the Sloan story is one of sustainable transformation—from the first Royal® Flushometer to the innovative solutions of today like the CX Flushometer, which is helping conserve water around the planet.

- 1906** The Royal Flushometer ushers in the modern plumbing era. Relying on water pressure instead of gravity, it requires less water and energy.
- 1928** New Sloan piston flushometers withstand water with higher mineral content.
- 1942** In response to wartime rationing, Sloan manufactures the Victory Valve from plastic and ductile iron.
- 1974** Sloan debuts the first hands-free sensor faucet, which use up to 40% less water than conventional faucets.
- 1980** Sloan introduces Optima® electronics into flushometers.
- 2003** To achieve maximum water savings, Sloan debuts its first waterfree urinal.
- 2005** Sloan introduces the award-winning UPPERCUT® Manual Dual-Flush Flushometer, enabling users to save 30% more water.
- 2008** Sloan introduces solar power harvesting in SOLIS® Flushometers.
- 2011** Sloan introduces the revolutionary, sensor-activated BASYS® Faucet line.
- 2015** The AER-DEC® Sink System combines soap dispenser, faucet, and hand dryer into one beautiful, touch-free, hygienic, highly efficient system.
- 2015** Sloan's Reclaimed Water Flushometer is engineered to withstand the higher chemical concentrations of reclaimed water.
- 2015** The Sloan Hybrid Urinal helps buildings save thousands of gallons of water every year.
- 2016** Proprietary SloanTec® Glaze imparts permanent water and oil-repellent properties to fixtures, keeping them cleaner, longer.
- 2017** Sloan introduces a line of seven sensor soap dispensers that pair perfectly with popular Sloan sensor faucet styles.
- 2018** New-generation Optima® Faucets are smart and easy to install, service, maintain, and adjust.
- 2018** Three SloanStone® Sink designs are added to the line.
- 2018** Sloan pressure-assisted toilets deliver flushometer performance for light commercial facilities.
- 2019** The CX Concealed Flushometer brings striking minimalist lines to restroom design.
- 2019** New Designer Urinals give restroom designers more stylish options.
- 2019** Sloan launches the quieter, more efficient Optima Air™ Hand Dryer.
- 2019** Designers get more options with the Graphite, Brushed Nickel, Brushed Stainless, and Polished Brass special finishes.
- 2020** Sloan introduces new spout designs to the Optima Faucet line.
- 2021** Sloan launches Online Training Center to enhance virtual learning.
- 2022** Sloan and ASM Global launch partnership.
- 2022** Sloan debuts ESD-360 Top-fill Soap Dispenser.
- 2022** Sloan opens new showroom, office space in downtown Chicago.
- 2022** Sloan launches 'Sinks Beyond the Restroom' innovation.
